

Industrial Stormwater Permit Training

Thursday July 30, 2009
Chaska, MN

Registration: \$35

Why should you attend?

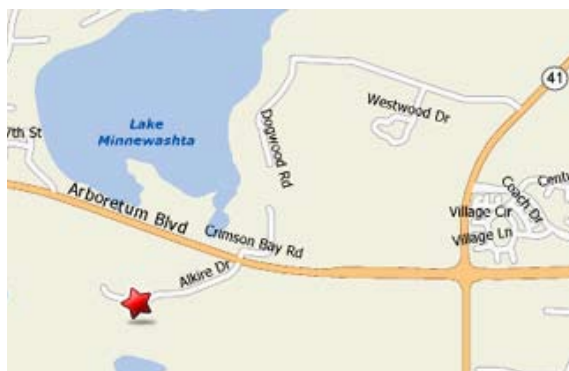

Thousands of large and small **industrial facilities** in Minnesota have been required to comply with stormwater regulations, including municipally owned or operated industrial facilities. As many as 50% of facilities requiring permits are not presently permitted. Is this you? The updated **industrial stormwater permit** is scheduled to be complete soon. In many cases facilities can be in compliance with little to no modification of their existing operations, but permit applications still need to be filed. This event will focus on the new permit regulations, the application process, and how to obtain a "No Exposure Exclusion."

Who should attend?

This event is for **industry staff** responsible for facility compliance with industrial stormwater regulations. A full list of SIC codes for regulated parties is available at the MPCA website: <http://www.pca.state.mn.us/water/stormwater/stormwater-i-step1.html>

Date and Location

Thursday, July 30, 2009
U of M Landscape Arboretum
3675 Arboretum Drive
Chaska MN 55318
