

Stormwater U: Designing for Volume Control

Friday November 20, 2009
Chaska, MN
Registration: \$200

Stormwater U is an in-depth training series for designers, planners, and stormwater professionals

Why should you attend?

Learn how to design for volume control benefits and requirements using bioretention, infiltration and other techniques. This program will take you through the design process from site layout to construction observation. This seminar will qualify for 5.5 PDHs.

Who should attend?

This is a technical training for public and private engineers, Soil and Water Conservation District technical staff, and others involved in designing, reviewing, or inspecting stormwater management volume control practices.

Date and Location

Friday November 20, 2009
Minnesota Landscape Arboretum
3675 Arboretum Drive
Chaska, MN 55318

Cost of Attendance

Workshop Registration is \$200. This fee includes lunch and the conference information packet.

Agenda

8:00 am	Registration
8:30 am	Introduction
9:30 am	Design: Soils
10:30 am	Design: Sizing
12:30 pm	Lunch
1:15 pm	Design: Pretreatment, Plants, Aesthetics
3:00 pm	Construction
4:30 pm	Adjourn

Keynote Speakers

Kurt Leuthold, P.E. is the design engineer for the highly acclaimed Burnsville Raingarden Project and has developed a number of local infiltration projects

Rusty Schmidt is a landscape ecologist with Washington Conservation District and co-author of "Plants for Stormwater Design." He has assisted many cities around the country to launch successful raingarden programs.
