

Stormwater Pond Management: Pond Sediment Excavation

The fourth in a series on stormwater pond management

Wednesday, May 6, 2009

7:30am – 1:00pm

Presentations, Field Practices, & Round Table Discussions

North St. Paul Community Center

2290 First Street

North St. Paul, MN 55109

651-747-2411

www.ci.north-saint-paul.mn.us

Cost: \$50

Public works and engineering staff and MS4 coordinators in the East Metro area are invited to attend, discuss, and learn about stormwater pond management.

- ◆ **Presentations:** Will focus on performing maintenance (excavation) on stormwater ponds, an important issue for Municipal Separate Storm Sewer System (MS4) operators, such as cities and watersheds in meeting their permit requirement.
- ◆ **Field Practice:** Examine Franklin Pond and learn first hand how to map, quantify and take stormwater pond sediment samples. (This is an outdoor event so please come prepared for the weather.)
- ◆ **Roundtable Discussion:** Learn about stormwater wetland management and explore other stormwater issues related to your communities.
