Erosion and Stormwater Management Certification Program

Industrial Stormwater Class Schedule and Registration

www.erosion.umn.edu
Please print legibly. Use one form per person; photocopy for other individuals. Or use the group registration form at www.erosion.umn.edu

Class sizes are limited, so register early to guarantee a place. See back for important information on fees, substitutions, and cancellations.

To register: review the schedule of courses on the next page. Enter the section number, city, and dates for each course that you select below. You may optionally enter a second choice of section; we will automatically register you for that if your first choice is full.

<table>

No workshops scheduled at this time.

This event is for anyone interested in learning about industrial stormwater regulations, especially industry staff responsible for facility compliance with industrial stormwater regulations.

Topics include:
- Industrial stormwater regulatory history
- 2020 ISW Permit and No Exposure review
- Stormwater Pollution Prevention Plan (SWPPP) development
- Stormwater Monitoring and Reporting requirements
- ISW Enforcement

*CFS - Call for Status (612-625-9733)

#### IS 2201 - Design of Industrial Stormwater Pollution Prevention Plans

No workshops scheduled at this time.

This event is for industry staff responsible for facility compliance with industrial stormwater regulations. This event will focus on industrial stormwater permit requirements, the application process, and how to create the required Stormwater Pollution Prevention Plan (SWPPP).

#### IS 2202 - Industrial Stormwater Regulations, SWPPPs, Sampling, Monitoring, and Training Requirements

Industrial facilities in Minnesota regulated by the Industrial Stormwater Permit are required to develop a stormwater pollution prevention plan (SWPPP), conduct sampling and monitoring of stormwater runoff, and adapt to stormwater runoff monitoring exceedances from facilities. This full-day event will cover topics from permit basics, SWPPP development and implementation, and stormwater monitoring to selection of best management practices for SWPPP modification and annual training requirements. This event will not provide detailed design guidance for structural practices or detailed responses to benchmark exceedances.

This event is for anyone interested in learning about industrial stormwater requirements, especially industry staff responsible for facility compliance with industrial stormwater regulations.

*CFS - Call for Status (612-625-9733)

#### IS 3201 - Sampling and Monitoring

Registration Fee: $125  10:00 am-3:00 pm

No workshops scheduled at this time.

This event will focus on the permit sampling and monitoring requirements of the industrial stormwater permit, including how to take samples and report the lab results. This event is for anyone interested in learning about industrial stormwater requirements, especially industry staff responsible for facility sampling and monitoring of stormwater runoff. Topics include:
- Permit requirements for monitoring, sampling, and reporting
- Benchmark exceedances
- Working with testing laboratories

Visit www.erosion.umn.edu to find out about schedule changes and additions as well as information about other courses available.

#### IS 3202 - Industrial Facility Response to Benchmark Exceedance

Registration Fee: $125  9:30 am - 2:30 pm

No workshops scheduled at this time.

This event will focus on responding to benchmark exceedances and selecting best management practices to address these exceedances. This event will not provide detailed design guidance for structural practices.

This event is for anyone interested in learning about industrial stormwater requirements, especially industry staff responsible for facility compliance with industrial stormwater regulations.

#### IS 3203 - Managing TSS on Industrial Facilities

Registration Fee: $135.00  10:00 am - 3:00 pm

No workshops scheduled at this time.

This event will focus on responding to benchmark exceedances for TSS and selecting best management practices to address these exceedances. This half-day event is for anyone interested in learning about industrial stormwater requirements, especially industry staff responsible for facility compliance with industrial stormwater regulations on sites with TSS exceedances.

#### IS 3204 - Create Your Facility's ISW Training Program

Registration Fee: $50.00

No workshops scheduled at this time.

The Industrial Stormwater Permit requires annual training for facility staff. When properly trained, staff are more capable of preventing spills, responding appropriately to accidents, and recognizing situations that could lead to accidents.

This event is for anyone interested in learning about industrial stormwater requirements, especially industry staff responsible for facility compliance with industrial stormwater regulations. Attendees are requested to bring facility-specific information (such as the SWPPP) to class in order to begin developing an annual training program that can be provided to facility staff.

#### IS 5005 - Advanced Industrial Stormwater Topics

Registration Fee: TBD

No workshops scheduled at this time.

This course is designed for individuals who are knowledgeable about the industrial stormwater permit and the permit requirements. The event will discuss advanced topics related to industrial stormwater, and will satisfy the permit’s annual training requirement.
Erosion and Stormwater Management Certification Program
The University of Minnesota began this program in 2002 to provide comprehensive training for project managers, contractors, inspectors, and designers in the construction industry, and now also provides training for other stormwater audiences as well. This program provides training to meet the Minnesota NPDES Construction Permit requirements. This program also provides certification for personnel required for Mn/DOT and State Aid funded projects involving bridges crossing rivers and streams, major grading projects, design/build projects, and all projects requiring an NPDES construction permit.

Materials
Your workshop fee includes all reference materials. Please bring notepaper, pencils, and a calculator.

Disability Accommodations
To request disability accommodations, please contact the University of Minnesota at 800-646-2282 or 612-625-9733 at least three weeks prior to the scheduled course.

Registration Information
Registrations will be processed on a first-come, first-served basis. Class sizes are limited, so early registration is encouraged for best selection of classes. Registrations will not be processed without payment. You may pay by check, credit card, or governmental purchase order. You can check http://www.erosion.umn.edu/ or call 612-625-9733, to see if seats are still available.

Cancellation Fee
Cancellations will be accepted up to seven calendar days prior to the course with a $25 Cancellation Fee. If you cancel after that time, or if you fail to appear at the course, you will forfeit your entire registration fee. Failure to appear at the course due to inclement weather will also follow this policy. Cancellation requests must be submitted in writing via e-mail (erosion@umn.edu) or fax (612-626-6030).

No refunds will be provided in the event that a class is canceled due to inclement weather.

Substitutions
You may substitute another person’s registration for your own; we request notification no less than two working days before the course.

Visit www.erosion.umn.edu for up-to-date information on schedule changes and additions, as well as other courses such as Regulatory Inspector, Stormwater U, and more!
